RESUSCITATION 2023
Why you should attend

- This is the leading congress on resuscitation science including: guidelines update, 1-year in review, latest science and controversial topics, diversity, community engagement, survivors and much more.
- Get the insights of European and global experts and opinion leaders in resuscitation. Don't miss the opportunity to meet and interact with them!
- Learn through new scientific formats: hands-on workshops, debates, case-based education and meet-the-expert corners.
- Take part in our famous CPR Competition! Join one of the national teams to challenge other professional resuscitators and prove that you and your team are the best in Europe for CPR quality.
- Showcase your scientific work during a dedicated poster session. In addition, all posters will be displayed in the venue during the 3-day congress, providing more visibility and networking!
- Compete for Young Investigator and Best-of-the Best awards. You can become a scientific leader in Europe!
- A great networking opportunity: a mix of experts, doctors, nurses, paramedics, instructors, researchers, fellows and students with the common goal of saving more lives.
- And finally, don't miss the chance to visit beautiful Barcelona!
